mdEditor — 20 main features

Source 1.0.14 | 2026-10-20

1. Live preview beside your text, scrolling together

2. Preview on a second display, following the line you edit

3. Also a viewer: the preview fills the window

4. Mermaid and Graphviz diagrams and math, offline

5. 3D models (STL) you turn with the mouse

6. Maps (GeoJSON), with OpenStreetMap when you allow it

7. Colored code for about 40 languages, kept in PDF and Word

8. Table of contents from your headings, updated with one press

9. GitHub-style alerts, front matter, and collapsible sections

10. Videos play right in the preview

mdEditor — 20 main features

Source 1.0.14 | 2026-10-20

11. One-click PDF that looks exactly like the preview

12. Opens Word, HTML, e-mail, CSV, JSON, Jupyter Notebooks, and images

13. Saves as HTML, PNG, Word, CSV, JSON, Jupyter Notebook, or text; sharing ZIP

14. Drop or paste images; adjust their size and centered alignment

15. Safe saving and automatic crash recovery

16. Opens Shift_JIS, EUC-JP, and UTF-8 files correctly

17. Internet images, videos, and maps load only when you allow them

18. No ads, no tracking, no account

19. Everything from the keyboard, with custom shortcuts

20. Screen reader support, read-aloud, and dark mode
