Bring it in. Make it clear.

From Word, web pages and CSV to Markdown.

1 Open Word, HTML, email, CSV and notebooks
2 Edit with diagrams and equations in view
3 Export to Word, PDF, HTML and PNG

Word layout is not preserved. Diagrams and math export to Word as pictures.

mdEditor update

Main additions: 1.0.8 / Latest source: 1.0.10

Import Word headings, lists, tables, links and images.

Word export uses native heading and paragraph styles.

Paste or drag images into your document.

Internet images load only after consent by default.

Word layout and notebook output export are not preserved.

The current Microsoft Store build number is unverified.
